

Metro Utility Excavations

Metro Utility Excavations (MUE) was established in 2016, With over 40 years' experience combined in gas works, maintenance and upgrades, working on the Australian Gas Network, the vision at the time was to provide exceptional and ongoing service to gas and civil markets in particular with APA Mains Renewal Programme and other Project Works.

To date MUE have renewed over 35 kilometers of gas pipe line including upgrading over 5,000 consumer connections through projects such as Morphett Vale, Woodcroft, Eden Hills, Wayville, Semaphore and Torrensville in addition to recently completing 1,700 meters of mains renewal and commercial consumers within the Adelaide CBD, including all of Rundle St, as part of the CBD Upgrade and continue to provide ongoing service to the APA Group and other clients.

Under the sole Directorship of Dale Bradley and having demonstrated its capability, MUE has since secured a position on the Minor Panel Works with the opportunity to work directly with APA.

MUE has a current in field work force of 16 direct employees supported by Management staff of (5) including Estimators, QHSE Advisor, Finance and Planning, Construction & Project Management and Administration. Delivering scheduled contract works for new, upgrade, remedial and connection services, with contract value from \$0-2.5M.

MUE mobility with plant and equipment includes for 1.5t – 3.5t excavators, 5 – 10t tippers, on site mobile offices with Pantech trucks, mobile utes, vans, and non-destructive excavation (NDE) with a 10,000ltr Mega Vac Hydro Excavation truck.

MUE prides itself on having a “Safety First” approach with a zero lost time record since its commencement of operations and continues to improve its operation process via carrying out services locating prior to excavations providing its clients with peace of mind when engaging MUE to work in and around other utility services.

MUE can further demonstrate its capabilities and resources by offering its Clients & Managing Contractors joint venture delivery of works, using its sub-contractor base and working partners, providing confidence & trust that project deliverables are coordinated and managed on time and budget.

Should you wish to further understand MUE capabilities please do not hesitate to contact us to arrange for an opportunity to discuss in detail.

We look forward to hearing from you,

Kind regards,

Management of Metro Utility Excavations Pty Ltd
